

RML  **AD**

Le Mans 24 Hours 2011

Thomas Erdos

Date of Birth: 30th October 1963

Nationality: Brazilian (Born Rio de Janeiro)

Status: Married with 3 Children

Helmet: Blue with yellow and blue chevrons

Like so many of his countrymen, Thomas Erdos was inspired to pursue a career in motorsport by two Brazilian heroes; Emerson Fittipaldi and Ayrton Senna. As a child Tommy had been particularly influenced by Fittipaldi, and was fortunate in having understanding parents who not only encouraged their son's interest, but also bought him his first car and helped him forge a future. Unable to speak a word of English, Tommy went initially to America, where he trained as a mechanical engineer, but simultaneously saved up enough money to be able to fly over to the UK in 1985 and enrol at the Jim Russell Racing School.

Although he'd never driven on a race circuit before Tommy made an excellent impression. Recognising his raw talent, the School encouraged him to persevere and to seek sponsorship. Working as a race engineer, Tommy polished his English, saved money, and found some modest funding. He made his season debut in 1988 in British Formula First and finished second, despite missing a quarter of the races. He then went on to win his first major title in 1990. The British Formula Renault Championship is still one of the main feeder series for Formula 1, but it had an even higher profile then. Tommy swept the board and was declared a "champion for the future" by none other than Nigel Mansell.

An injury sustained in testing put Tommy out of action for several months and cost him a promising drive in Formula 3. The sponsorship dried up, and Tommy had to look elsewhere for his career in motorsport. By chance – and with no GT experience at all – Tommy was invited to race for Team Marcos in 1995 in the Le Mans 24 Hours. The rest, as they say, is history.

With twelve appearances at Le Mans, including two class wins, as well as countless podiums, pole positions and lap records in endurance racing worldwide, Thomas

Races to Remember

Le Mans 24 Hours 2011

Erdos is now widely recognised as one of the quickest drivers in the sport. He won the British GT title in 2002 and the Le Mans Series LMP2 drivers' title in both 2007 and 2010. He has been runner-up twice, in 2005 and 2006. This is his ninth season with RML AD Group.

Tommy is married with three young children and lives in Buckinghamshire. Further information and details of Tommy's career portfolio can be viewed on the RML AD Group team website.

About RML

The RML Group comprises six divisions; Motorsport, Automotive, Engines, Historic, Events and X-Pro. Based in Northamptonshire, England the company's 4,300 square metre facility includes design, development, manufacturing and operational support for international race/rally programmes and automotive engineering projects including performance engine development.

Since its formation in 1984 RML has achieved success in a diverse range of motorsport categories including GT/sportscars, touring cars, rally cars, single seaters and oval speedway cars. RML currently holds the LMP2 team and drivers titles in the Le Mans Series with Mike Newton and Thomas Erdos. RML also secured the 2010 British Touring Car Championship drivers title with Chevrolet and Jason Plato and the World Touring Car Championship manufacturers and drivers titles with Chevrolet and Yvan Muller.

About AD Group

Global Video Specialist, AD Group with its 30,000ft headquarters in Warrington, England, was established in 1997, its primary objective being to create and bring to market leading edge CCTV solutions. The pioneering nature of the Group's products, with the emphasis very much on R&D, has undoubtedly been a critical element in AD's success to date. The principal shareholder of AD is Mike Newton who founded UK CCTV giant Dedicated Micros in 1982 which ranks No1 globally for multi channel digital video recorders.

In 2001 Dedicated Micros became an integral part of AD Group. Since that time all AD companies have been able to take advantage of a shared technology and development base, with all products designed and manufactured in-house at facilities in Malta, UK and USA - offering security specifiers, integrators and users the potential for flexible, seamlessly integrated CCTV solutions on the ground, in the air and on the move. AD Group Companies worldwide include: AD Aerospace, AD Aviation, AD Mobile, AD Network Video, ChipWrights, Dedicated Micros, D-Tec, ISD, RemGuard and TSS.

More information on AD Group is available at www.ad-group.co.uk
